

The all SALTWATER store.

RAINBOW SEASCAPES IN LAS VEGAS

Saltwater aquarium keeping has come of age. Colorful marine fish adorn: drinking glasses, dinner plates, puzzles, bath towels, clothes and are seen on TV. Not too many years ago a store that specialized strictly in marine fish, invertebrates and related support

equipment would stand little chance of survival. Today, there are several all saltwater stores in the US that are doing very well. **MARINE AQUARIST™** visits one of the best all saltwater stores. This store is owned and operated by people who are highly qualified to

handle and care for all the marine pets in their custody. They have the ability to guide customers of all levels to success and full enjoyment of the fantastic hobby of marine fish and reef aquarium keeping. If you are in Las Vegas, be sure to stop in.

RAINBOW SEASCAPES is owned by Lance and Mikki Ichinotsubo. **RAINBOW SEASCAPES:** 5040 Spring Mountain Road #1. Las Vegas, NV 89102. Phone: 1-702-871 0086. Fax: 1-702-871 2994.

and Naso tangs along with Longnose butterflies from Hawaii, dozens of clownfish, damsels, blennies, butterflyfish and more from the Indo Pacific are all thriving in the Las Vegas Desert at Rainbow Seascapes.

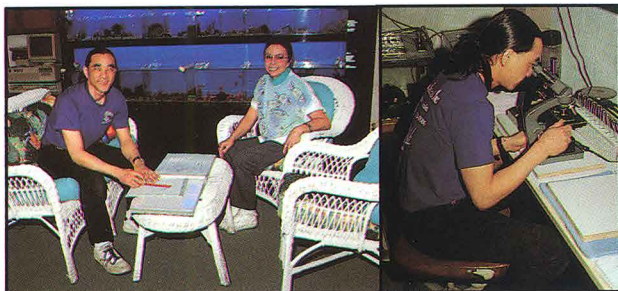

Some of the hundreds of corals and invertebrates for sale.

Rainbow Seascapes designs, installs and maintains dozens of fantastic super show sized marine aquariums in the major hotels in Las Vegas.

RAINBOW SEASCAPES is 2000 sq. ft. with 11 systems. An unbelievable display of healthy, tank acclimated Asfur angels and Semi-larvatus butterflyfish from the Red Sea, Queen triggers and Royal Grammas from the Caribbean, Powder Blue tangs and Annularis angels from the Indian Ocean, Achilles

The store has a well-equipped lab. for testing a variety of water conditions. Biological filters, skimmers, towers, air strippers, UV and other high-tech equipment are employed throughout the store. A variety of marine salts are offered; however, Marine Environment®, BIO-SEA® & Coral Marine are the salts used in the store and for maintenance aquariums.

Lance and Mikki.

Lance in the lab.

Some of the 37 large display aquariums with over 4000 US gallons that are controlled by 11 separate filter systems. There are 11 quarantine tanks with over 750 US gallons.

Four new marine salts

CORAL MARINE™ is manufactured by Aqua Craft®, Inc.

Coral Marine™ Scientific Formula™ is manufactured with information from the S-15 Report™.

Preliminary investigation indicates that Coral Marine™ salts are a consistent blend of select grade elements that mix to the proper pH of 8.3. Coral Marine™ contains all elements found in NSW, includes a tap water dechlorinator, without phosphates, nitrates or silicates.

KENT MARINE SALT is manufactured by Aquarium Systems®.

Preliminary investigation indicates that Kent Marine Salt is equivalent to Reef Crystals®.

The S-15 Report™ concludes that Reef Crystals® mix to a pH of 8.95. Samples vary in calcium (a major element), exhibit deficiencies in bromide (a minor element) and vary in silicates, and did not contain vitamins vs. claim of vitamins on the package.

MEERSALTZ™ is a European marine salt formulation manufactured in the US and distributed in North America by Import Associates™, Inc.

Preliminary investigation indicates that Meersaltz™ is equivalent to premium European export marine salts. However, Meersaltz™ mixes to the proper pH of 8.3, includes a dechlorinator, and is low in metals. Meer-saltz™ is a fast dissolving powder that contains all elements found in NSW without phosphates or nitrates.

SAGA SALT is manufactured by Energy Savers.

Preliminary investigation indicates Saga Salt is equivalent to Coralife® salts.

The independent S-15 Report™ concludes that Coralife® salt mixes to a pH of 8.73. Samples exhibit dramatic deficiencies in magnesium and bromide (major and minor elements) and was made from nonuniform particle size materials which did not contain vitamins vs. claim of vitamins on the package.
