

SPECIFIC GRAVITY TESTER™

Specific gravity is the first, most important, the most often performed and easiest test for all saltwater aquariums.

Maintaining proper specific gravity will safeguard all marine fish and reef aquariums against problems due to improper basic water conditions.

Only the Marine Environment® Specific Gravity Tester™ is color coded for quick, easy and accurate measurements.

Each Specific Gravity Tester™ is complete with easy to understand instructions, attractive display card, is durable, reliable and low in cost.

International version has instructions in: English, French, Spanish, Italian, Portuguese, Japanese, Dutch and German.

Available in aquarium and pet shops worldwide.

Retail dealers inquire:
